

**FOR IMMEDIATE RELEASE**

**CAPE COD CLINICAL RESEARCH, INC. LAUNCHES TRIALDOCS™**

**OSTERVILLE, Mass. (Jan. 28, 2008)** – Cape Cod Clinical Research, Inc. (CCCRI) is proud to announce the launch of TrialDOCS™, a proprietary and robust online clinical document management tool. The capabilities of TrialDOCS will assist pharmaceutical and biotech companies in managing their regulatory documentation electronically across multiple US and international sites. TrialDOCS will enable investigative sites, site monitors, and pharmaceutical companies to view and manage their regulatory files via a secure website. This robust, yet easy to use resource, demonstrates the dedication of CCCRI to their customers while maintaining valuable study data in a secured centralized database.

“The development and launch of TrialDOCS is another example of CCCRI’s commitment to offering biotech and pharmaceuticals companies, robust and effective technology during their clinical research and development phases,” said Bill Baker, chief executive officer, Cape Cod Clinical Research, Inc. “In 2009, the pharmaceutical and biotech industries will not be exempt from the countries current economic challenges. Finding ways to increase productivity while cutting costs, will be an ongoing directive within clinical research departments. We are so proud to offer first class services and technologies at affordable prices,” added Baker.

TrialDOCS will provide the primary investigator the ability to perform basic query and reporting operations, migrate data between various file formats, prepare databases for statistical analysis, and perform quality assurance procedures.

**About Cape Cod Clinical Research, Inc.**

Since 1998, Cape Cod Clinical Research, Inc. (CCCRI) has been providing the pharmaceutical and biotech industry, as well as individual clinical study sites with project management, quality monitoring, GCP auditing, and site assessments and training programs for research personnel. Our client approach has involved a commitment to understanding and sharing your clinical development goals, while keeping your budgets in mind. We focus our energy and resources on meeting those goals, all the while providing exceptional service. For more information, please visit [www.cccri.com](http://www.cccri.com).
